

PivotTables & PivotCharts Practice Worksheet

Use the file **pivot_table_source.xlsx** (sheet: Sales Data) to answer the questions below. Build each PivotTable / PivotChart in Excel, then write your answer in the space provided.

Available Fields

Order ID, Order Date, Region, Country, Sales Rep, Product, Category, Units Sold, Unit Price, Revenue, Discount %, Profit

Section A: Basic PivotTables

Q1. Create a PivotTable showing total **Revenue** by **Region**. Which region generated the highest revenue?

Answer: _____

Q2. Build a PivotTable with **Category** in rows and **Sum of Units Sold** in values. Which product category sold the most units overall?

Answer: _____

Q3. Create a PivotTable showing **Sum of Profit** by **Sales Rep**, sorted from highest to lowest. Who is the top-performing rep by profit?

Answer: _____

Q4. Build a PivotTable with **Region** in rows and **Country** as a sub-level (nested rows). Add **Sum of Revenue** as the value. Which country within each region contributes the most?

Answer: _____

Section B: Multi-field PivotTables

Q5. Create a PivotTable with **Category** in rows, **Region** in columns, and **Sum of Revenue** in values. Add a Grand Total row and column. Which Category–Region combination has the lowest revenue?

Answer: _____

Q6. Build a PivotTable showing **Average Unit Price** by **Product** (use Value Field Settings to change Sum to Average). Which product has the highest average price?

Answer: _____

Q7. Create a PivotTable with **Sales Rep** in rows and **Sum of Units Sold**, **Sum of Revenue**, and **Sum of Profit** all in the values area (side by side). Which rep has high units sold but relatively low profit — and why might that be?

Answer: _____

Section C: PivotCharts

Q8. Create a **Clustered Column Chart** (PivotChart) showing Revenue by Region.

Answer: _____

Q9. Create a **Pie Chart** showing the share of total Units Sold by Category.

Answer: _____

Q10. Create a **Bar Chart** ranking Sales Reps by total Profit, sorted highest to lowest.

Answer: _____

Section D: Challenge

Q11. Combine what you've learned: build one PivotTable + PivotChart that answers this business question — *"Which Sales Rep should get the top performance bonus, considering both total Revenue and average Profit Margin ($\text{Profit} \div \text{Revenue}$)?"* Justify your answer in 2–3 sentences using the numbers from your PivotTable.

Answer: _____
